National Workforce Expansion
Scholarships for Disadvantaged Students:
The Primary Care Project (PCP)

Overview

This one-year year scholarship of $30,000 is available annually to 22 campus-based and Virtual Academic Center (VAC) students who will graduate in the spring or summer semesters of the last year of their MSW program. This scholarship is funded by a federal grant from the Health Resources and Services Administration (HRSA) through its Scholarships for Disadvantaged Students (SDS) program.

The scholarship will be awarded to students who are committed to providing primary care services in medically underserved communities (MUCs) in Southern California and throughout the United States. Recipients of this scholarship must complete qualified field placements and be from either the Adult Mental Health and Wellness (AMHW) or the Children, Youth and Families (CYF) department. They must meet the federal definition of a student from a disadvantaged background, which includes under-represented minorities (URMs), first-generation students, and those considered educationally, environmentally, or economically disadvantaged. Students selected for the PCP will receive trainings in primary care/integrated behavioral health internships and will commit to seeking employment in primary care settings with a focus on MUCs upon graduation.

Please keep in mind that this program relies on external federal funding every year.

The goals of the PCP are:
(1) Recruiting, increasing, and retaining MSW students from disadvantaged backgrounds who are committed to working in primary care/integrated behavioral health settings;
(2) Improving education and preparation of MSW interns from disadvantaged backgrounds to work in primary care/integrated behavioral health settings;
(3) Increasing the number and capacity of primary care/integrated behavioral health agencies offering MSW internships; and
(4) Supporting participants to gain employment in primary care/integrated behavioral health settings.

Qualifications and Requirements
To qualify and remain eligible for the 2021-2022 PCP scholarship, recipients must do the following:
• Graduate in spring or summer 2022.
• Intern in a primary care/integrated behavioral health setting approved to be part of this project.
• Attend a mandatory virtual orientation during the summer in mid-August 2021 to review scholarship requirements.
- Be in their final internship experience of the MSW program and be from the Department of Adult Mental Health and Wellness (AMHW) or the Department of Children, Youth, and Families (CYF).
- Maintain satisfactory academic progress (3.0 or better GPA) and performance in courses, and complete trainings sessions, field placement, and any other scholarship program requirement within one (1) academic year.
- Attend and adequately participate in virtual training sessions offered once per semester to interact with HRSA BHWET and OWEP-funded stipend students.
- Attend and adequately participate in cohort support meetings offered once per semester.
- Participate in MSW program training in at least two (2) of the following three (3) treatment modalities: Motivational Interviewing (MI); Cognitive Behavior Therapy (CBT); Problem Solving Therapy (PST).
- Attend and adequately participate in at least one job fair to pursue employment at agencies providing primary care/integrated behavioral treatment and intervention services.
- Register for the HRSA Health Workforce Connector.
- Obtain a National Provider Identifier (NPI) number for the purpose of collecting post-graduation employment demographics.
- Be a citizen or national of the U.S., or a lawful permanent resident, or a foreign national having in their possession a visa permitting permanent residency, or a non-citizen national.
  - Individuals on temporary or student visas are not eligible to participate.
- Attend and participate in at least one cohort support meetings offered once per semester.
- Participate in MSW program training in at least two (2) of the following three (3) treatment modalities: Motivational Interviewing (MI); Cognitive Behavior Therapy (CBT); Problem Solving Therapy (PST).
- Attend and adequately participate in cohort support meetings offered once per semester.
- Register for the HRSA Health Workforce Connector.
- Obtain a National Provider Identifier (NPI) number for the purpose of collecting post-graduation employment demographics.
- Be a citizen or national of the U.S., or a lawful permanent resident, or a foreign national having in their possession a visa permitting permanent residency, or a non-citizen national.
  - Individuals on temporary or student visas are not eligible to participate.
- Sign the PCP Student Commitment Form confirming understanding of all program qualification and requirements.

For the 2021-2022 academic year, applications will be accepted between July 1, 2020 and July 15, 2020.
