

INTERPROFESSIONAL EDUCATION CAREGIVING CERTIFICATE

*The Interprofessional Education Caregiving Certificate (IPECC) prepares health affairs students** to enter the workforce collaborative practice ready to engage in interprofessional team-based care that is culturally-responsive, evidence-based and trauma-informed with diverse caregivers.*

In 2021, about 38 million Americans spent 36 billion hours caring for adults with chronic, disabling, or serious health conditions. The estimated economic value of this care is \$600 billion.

In the IPECC, you will collaborate with social work, nursing, pharmacy, dentistry, gerontology, medicine, and other health professions. You will learn evidence-informed methods for engagement, assessment, treatment, care planning and formulating interventions with informal caregivers.

TODAY'S FAMILY CAREGIVERS ARE DIVERSE
