

Collaborative Intelligence:

Creating Human-Centered Technology for Social Good

Join our interdisciplinary panel with faculty, alumni and students from five USC schools for an in-depth discussion of how technology is shaping social work, medicine and journalism and the potential for collaborative, human-centered and just technology.

Virtual Panel

 **March 21, 2024**

 **5:00 - 7:00 PM**

Open to all USC students, alumni and community partners
